**SupplyCore**

Worldwide Supplies • Worldwide Support

## THE FASI-G PROGRAM

### Procure your vehicle parts faster with fewer problems

The Global Fleet Automotive Support Initiative (FASI-G) is a program developed by the Defense Logistics Agency to provide **CONUS and OCONUS logistical support** throughout the entire supply chain for **land-based tactical and non-tactical vehicle fleets** worldwide.

As a FASI-G contractor, SupplyCore streamlines the purchasing process and manages thousands of parts from hundreds of suppliers that keep the Defense Department's tanks, trucks and bulldozers rolling. SupplyCore handles not only **acquisition and delivery of parts**, but also **forecasting and inventory management**.

This list contains all of the NSNs and part descriptions that SupplyCore handles through the FASI-Global Program. This list is subject to change. Please check online at [www.SupplyCore.com](http://www.SupplyCore.com) for updates.
