

CEIA HUMANITARIAN CLEARANCE TEAM WORK

Working in conjunction **with Humanitarian Clearance Teams** around the world, **CEIA has developed a series of detectors** that can easily be operated together to deal with Mines, EOD, IED and Command Wire clearance requirements.

CMD series

**LIGHTWEIGHT, COMPACT METAL DETECTOR
FOR MINES, IEDs AND UXOs**

- Extremely easy to compensate and operate
- Built in Battery Charger, Fully Digital Design
- Immune to EMI, Continuous self-Calibration

DSMD

**DEEP SEARCH METAL DETECTOR FOR UXO TARGETS
INCLUDING CLUSTER MUNITIONS, BOMBS AND OTHER ERWs**

- Easy Operations with pin pointing capability
- GPS with Data Tracking capability
- Single person operation with built in Battery charger and easy to understand display

CWD

LIGHTWEIGHT, COMPACT METAL DETECTOR

- Fast and easy start-up and operations
- Can easily detect / track command wires in all environments while approaching at any orientation
- Automatic GPS with Data Tracking
