

Dräger UT 402 Rebreather Diving Equipment

The Dräger UT 402 is an underwater telephone that provides clear communication without interference between divers and surface controller.

Benefits

Excellent communication - diver(s) & surface controller

Via the hard wired transmitter/receiver unit, the surface controller is always in contact with the divers. Using a conference connection, up to two divers can be linked with the surface controller via a 4 core cable. The communications cable also serves as a safety line.

Wire-bound system

The small and light-weight surface unit is carried on the belt, leaving the hands free for other tasks. In combination with the Dräger Panorama Nova Dive diving mask, the communication system offers optimum communication without interfering with the diver's tasks.

Communication cable is also a safety line

The dynamic microphone is also plugged into one of the plug-in connections of the full-face mask and can be removed easily and quickly after use for cleaning and maintenance.

Technical Data

Surface Unit

Number of channels	2
Working principle	2 way operation, 4 wires
Length of telephone cable	50 m / 80 m / 164 ft / 262 ft
Tensile Strength telephone cable	2000 N / 450 lb.
Power supply	8 x 1.5 V Type AA Battery or NiMH Battery
Battery Life	12 hours
Connection for	Headset 2 divers Signal output

Diver Unit

Microphone	Dynamic, pressure-compensated to 75 m / 246 ft
Speaker	Piezoelectric

Ordering Information

Surface units

Surface unit, complete	including surface unit, headset, transportation case, waist belt	T 54 052
Surface unit	battery operated, 2 connections for diver, 1 connection for headset (required for operation: 8 batteries AA type or 1 NiMH)	T 54 070
Headset	for controller with 2 ear-pieces and swivel- type microphone	T 53 631
Waist belt	for surface unit	T 54 056
Transportation case	for surface unit and headset	T 54 055

Telephone cable

Telephone cable, 80 m / 262 ft	with Hi-Use and MS connectors, Loop and snap hook	T 54 053
Telephone cable, 50 m / 164 ft	with Hi-Use and MS connectors, Loop and snap hook	T 54 054
Transport bag	for telephone cable	T 53 061

Diver unit

Dynamic receiver and transmitter	Microphone with push-in connection for installation into Panorama Nova Dive mask 2 piezoelectric transmitters	T 54 058
Receiver pouch	1 pair, to attach receiver to Panorama Nova Dive mask	T 54 057
NiMH battery		T 54 153
Charger		T 54 154
Wireless Communication		on request

Masks

Full mask Panorama Nova Dive		T 53 510
Full mask Panorama Nova Dive Sport		T 53 700
