

# EQUIPPING WARRIORS IN HARM'S WAY

## Corporate Overview

The contracting officer, faced with deciding which company can understand process and has a plan to deliver on time and under budget is extremely frustrating.

At Training Center Pros, Inc., DBA EOD Gear, we are your willing guide with a plan to provide great value to you as well as the End User. With a strong past performance, backed by quality control processes, we allow you to proceed with confidence.

There's an old saying, "You have the rest of your life to fix your problem." As former End Users, we understand the mission and know that our gear must work as soon as it is pulled out of the box.

Our custom created kits and equipment are thoroughly inspected before packing and we even unpack a percentage of items to spot check accuracy. From creation, to packaging, to shipping, we are focused on delivering quality for immediate use.
