IMPRES
Technology Solutions, Inc.

IMPRES Technology Solutions, Inc., a leading IT solutions provider, combines decades of technological expertise with a thorough understanding of the Federal procurement and contracting process to implement the best possible IT solution for your agency while reducing risk and lowering costs.
As an SBA certified HUBZone, we have a lengthy history of high quality contract performance, and have been recognized as an ISO 9001:2015 certified firm. We take pride in presenting innovative and customized solutions that fulfill the technology needs of our customers while exceeding expectations.

The IMPRES Advantage

When Federal managers and military leaders face tough challenges in cyber, enterprise IT or systems and software engineering, they turn to IMPRES to get the job done right. At IMPRES, we help engineer your path to next generation IT.

- Holds major Government-Wide Acquisition Contract vehicles including NASA SEWP V (JV), NIH CIO-CS, and GSA Schedule 70 as well as IDIQ and BPA contract vehicles that help agencies navigate the complex procurement process and select the ideal path for their mission and needs.

- Decades of experience managing enterprise technology contracts in mission-critical environments, with a suite of cutting-edge infrastructure and automation tools to meet elaborate technical challenges across the Federal marketplace for military, intelligence, and civilian agencies.

- Access to innovative technologies and partnerships with all major OEM's to ensure we deploy the best available solutions (vendor agnostic) that address challenges and accomplish mission requirements, while avoiding costly and time-consuming missteps.
