Short Description:

LEGEND TUFF®. These Cold Weather boot socks were created specifically for those who demand comfort, durability and warmth.

United States Air Force Certified No Melt, No Drip/FR and Authorized Safe to Fly (StF).

Currently worn by US Special Operations. Endorsed by the National Tactical Officers Association and are NTOA Member Tested & Recommended. These boot socks were created specifically for those who demand comfort & durability. Our Unisex LEGENDARY Compression Boot Socks provide the ideal blend of comfort and performance for our warriors, warfighters and service men and women stationed around the world. Dense terry cushion throughout the entire socks keep feet warm during cold weather conditions. With graduated compression technology, these unique mid-calf compression boot socks provide mild compression and arch support that will combat tired and achy feet. Our soft merino wool fabric is moisture wicking, odor resistant and temperature regulating providing you the perfect sock to stay at your best all day long. Proudly Made in the USA.

Berry Amendment Compliant, Naturally Flame Resistant, High Merino Wool Content, Moisture Wicking

Long Description:

These socks were created for LEGENDARY performance & durability. These merino wool boot socks offer everything our Nation's Armed Services, Federal Agencies, State and Local Law Enforcement, Fire & Rescue, Tactical Teams and Emergency Services need from their socks. Field tested and currently worn by US Special Operations. The mild but effective compression level helps improve blood flow and circulation to keep your legs and feet feeling strong and fresh all day long. The soft merino wool is naturally moisture wicking, breathable and odor resistant creating a comfortable feel to round out the perfect boot sock. The temperature regulating features of merino wool warms your feet in cold temperatures and cools your feet in hot temperatures. All of our merino wool socks have a nylon wrapped covering to make them extra durable and LEGEND TUFF®.

KEY FEATURES AND BENEFITS:

- Made in the USA in our North Carolina mill
- **United States Air Force Certified No Melt, No Drip/FR and Authorized Safe to Fly (StF).**
- High merino wool content for maximum performance.
- Mild Graduated Compression to reduce foot fatigue.
- Graduated Compression Elastic Hosiery designed to promote blood circulation, endurance and overall performance.
- Durable & Comfortable: Dense Terry Cushion throughout the sock for comfort.
- Soft. The secret to merino wool softness is it's exceptional fine fibers.
- Naturally odor resistant.
- Moisture wicking & breathable to keep you dry.
- Warm & Cool: Merino Wool is an active fiber that reacts to change in body temperature. You stay warm when the weather is cold, and cool when the weather is hot.
- Arch support designed to provide comfort and minimal sock movement to prevent blisters.
- Machine washable- Low Shrinkage.
- Natural barrier to UV.
- LEGEND logo on toe signifies premium quality.

KEY CONSTRUCTION ATTRIBUTES (from the toe to the top of the sock):

- Zero Friction Toe: Seamless toe construction eliminates friction that can cause irritation.
- Extra cushion throughout entire sock for increased comfort and Warmth.
- Merino wool yarn is wrapped in nylon for softness, durability and to reduce shrinkage.
- Spandex keeps socks up and in place
- Clencher over the arch of foot for support and helps prevent blisters

Key Benefits Expanded:

Improved Endurance: By promoting proper blood circulation these socks are designed to support you as while navigating difficult and uneven terrain. The mild graduated compression provides the right amount of support for your legs & feet to perform at their best!

Temperature Regulating: Keep Cool & Stay Warm- The unique merino wool fabrics naturally help to keep your feet cool on hot days as well as keep them warm on cold days. By helping to keep your feet at the right temperature, it will help to keep the rest of your body at the right temperature as well, making for more comfortable working conditions.

Reduce fatigue & Soreness: By using our mild compression boot socks, you will find that your time needed to recover becomes shorter. By promoting proper blood circulation through graduated compression these socks will help to reduce tired and achy feet.
