MISSION-MINDED

We are focused on providing Elite Human Performance Facilities and first class service for those who protect and serve our great nation.

HOW WE OPERATE

For over 40 years, we have been a direct manufacturer of high quality strength equipment that handles large scale “build to order” projects. We provide all necessary equipment and services to outfit your Human Performance Facility to the highest standard. Our strategic partnerships and government procurement channels simplify your procurement process.

Worldwide Supplies • Worldwide Support

For more than 30 years, SupplyCore has supported the U.S. military, civilian agencies and allied governments with facility and infrastructure supplies, repair parts, special use equipment, end items and heavy equipment. Driven by its mission to sustain and enhance the physical and human capital of our nation and its allies in times of peace and contingency, SupplyCore's market segments include Base Operations Supply, Special Operational Equipment, and Weapon Systems Support. SupplyCore maintains fast, reliable and cost-effective supply chains to meet program requirements and support customers worldwide. Inc. has recognized SupplyCore as one of America's fastest-growing companies for a total of nine years, including induction into the elite Inc. 500 Hall of Fame. For more information about SupplyCore, visit www.supplycore.com.

PROCUREMENT VEHICLES

SupplyCore is ready and able to provide state of the art Human Performance Equipment through our Special Operational Equipment (SOE) Tailored Logistics Support (TLS) contract with the Defense Logistics Agency. As an SOE Prime Vendor, SupplyCore provides the equipment you need, when you need it, at the best possible price. We are dedicated to making our SOE TLS supply chain fast, reliable, and cost-effective through every phase, from sourcing and procurement to warehousing and facility support, distribution and logistics.

TOTAL SOLUTION

THE SAMSON TEAM GUIDES YOU TO YOUR FIRST CLASS FACILITY

MEANS OF PURCHASE

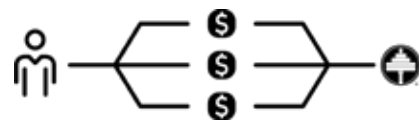

We offer various methods to procure your equipment.

PROGRAMMING

The Samson difference involves working with professional guides who understand program design, room layouts and the flow of your room.

EQUIPMENT SELECTION

Selecting the best equipment to satisfy your needs, wants and budget. Your guide will begin to present you with options and recommendations for your project.

SAMSON OUTDOOR LIFTING SYSTEM®

PATENT PENDING - OUTDOOR PLATFORM AND ALASKA STRUCTURES® SHADE TENT

Our Samson Outdoor Lifting System® (S.O.L.S) provides you with a 10' x 10' leveling platform built with Samson Specs at 3"x 3" .188 square tubing frame, 1.5" x 1.5" cross pieces, and a rubber lifting surface. This system is equipped with a 10' x 10' Alaska Structures® Shade tent built to withstand wind speeds of up to 100mph! Take your outdoor training to a new level with this solution.

** Tent Available for Custom Branding **

Alaska Structures® Shade tent available for custom branding.

Alaska Structures® Shade tent built to withstand wind speeds of up to 100mph!

Adjustable platform enables you to level to any surface.

SAMSON LOCKER

MOBILE SHIPPING CONTAINER

The Samson Locker provides you with a 20' mobile shipping container to easily store your racks, benches, bars, and weights. Compared to other brands on the market, it is highly configurable to fit your needs. It has a higher capacity with our rack designs, we can fit 24 racks on our 20' container. The Samson Lockers are not limited to the foundation of the container, which allows for more mobile rack setups.

SAMSON RIGS

HIGH TIER TACTICAL RIGS

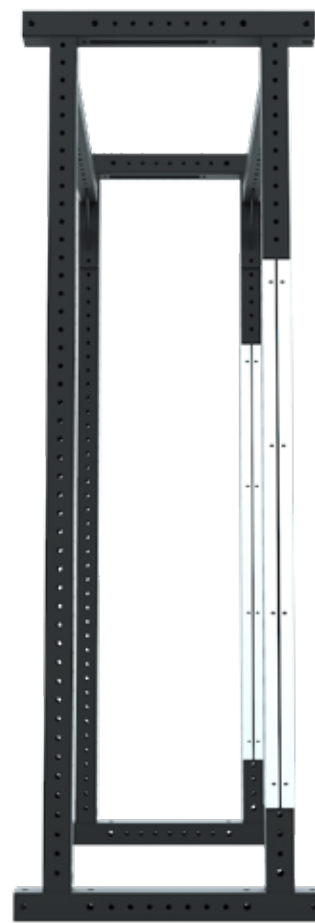

Take your functional training to the next level. Our rigs are built to last with 50% more steel across the board than any other competitor in the market. These rigs are space savers and fully customizable to suit your needs.

FLEX-RACK

ONE RACK WITH UNLIMITED OPTIONS

Our new Patent Pending FLEX-RACK™ Series allows for freedom and flexibility when designing your room. This Rack Series was developed with long term goals and limited budgets in mind.

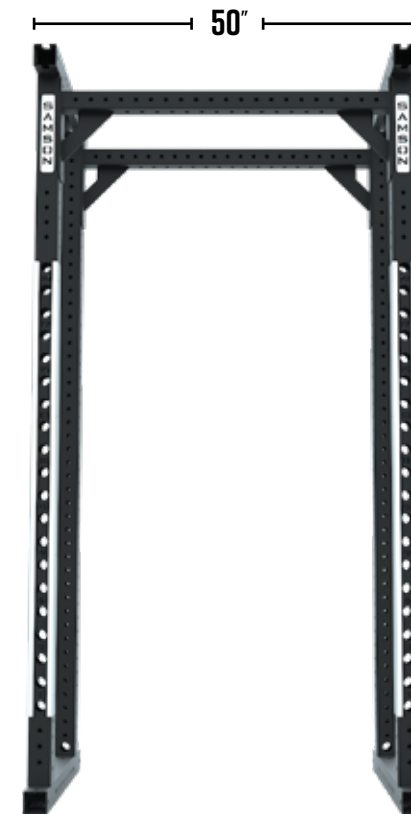

99"

BASE FRAME

With a foundation frame for all our rack designs, you are able to FLEX your rack design into any one of our FLEX models. This gives you maximum possibilities in room planning for many years to come.
