

Full Face Mask Galileo HUD Arms

SCUBAPRO's new Galileo HUD is a full dive computer with a build in GPS. The Galileo Heads-Up Dive Computer (HUD)The HUD can make it a lot easier to read you're your gauges in any dive environment. The Galileo HUD can tell you your air pressure, depth, Total time of dive, and a lot more. It helps tremendously with low visibility situations. It helps you maintain your depth and also helps you monitor your air pressure. SCUBAPRO's HUD can be mounted to different types of masks, it is was mainly designed to be mount on a dual lens mask, but it can also be mounted to the SCUBAPRO Frameless mask and most Full-Face Masks. Innovative Dive Equipment (IDE), Galileo HUD arm is designed to be used for just about any FFM. It mounts to the IDE Rail to allow the HUD to be used with most FFM.
