ELEVATE YOUR TRAINING

BeaverFit Performance Lockers and Containerized Gym Solutions provide high performance training capabilities in locations not previously possible. Our modular design and equipment packages enable multi-domain human performance development for mobility, flexibility, strength, power, endurance, agility, tactical skills, and recovery. Designed and manufactured in the USA to meet specific customer requirements, BeaverFit container gym solutions outperform the competition and will withstand extreme outdoor environments to solve your space constraints and high throughput needs.

To date, BeaverFit has manufactured and delivered more than 3,000 containerized gym solutions and we have curated these unique upgrade packages to increase the effectiveness of your outdoor fitness area.

+ **INCREASE CAPACITY AND THROUGHPUT:** Expand the number of personnel who can PT simultaneously by adding another Container Gym or increasing functionality with a rig addition or upgrade package.

+ **WEATHER PROTECTION:** Provide a safer, weather-protected training environment with a BeaverFit shade structure, which allows personnel to train regardless of the weather.

+ **SAFETY AND PERFORMANCE:** Enhance the safety and effectiveness of workouts with outdoor rated rubber flooring tiles and lifting platforms.

+ **ENHANCED TRAINING:** BeaverFit has partnered with industry leading companies in mobility, recovery, compression/PT apparel, functional training and off grid options to further enhance your training area.

BEAVERFIT PERFORMANCE LOCKERS:
Expand Your Fitness Footprint

The Container Gym is BeaverFit’s flagship patented product. The BeaverFit Container Gyms are standard shipping containers fabricated to anchor BeaverFit Training Rigs with custom storage for all the equipment necessary to create world class training centers.

RUBBER FLOORING + LIGHTING

Increase the Safety of Your Outdoor Training Center

Adding rubber flooring, lifting platforms and lighting will help to increase the safety and effectiveness of your workout. Flooring and lifting platforms provide a more even surface level that helps to remove trip hazards and helps extend the life of your equipment. BeaverFit can also assist with any ground preparation if needed.
