

URBAN OPS IED LANE VILLAGES

- Portable
- Deployable, Non-Permanent
- Re-Configurable
- Rapid Setup – Stackable
- Multi-levels
- ITAM Friendly
- Many Façade Exteriors

Patriot Products, LLC specializes in creating and building COE Urban Training villages. We deliver and erect on site, entire turn-key layouts specialized for your training needs. Compared to standard painted containers, our Urban Terrain Facilities provides a level of realism that denies strategic and tactical advantage to the enemy, while improving mission results success and reduction in casualties. Realistic layouts and configurations in various styles mimic modern warfare areas that allow familiarization to the soldier in actual theater locations.

We can design, manufacture and supply COE/MOUT sites from single containers to multi-story Brigade Level training objectives. Our COE/MOUT complexes can be set up for force on force or force on target training. They can be hardened for SRTA firing and can include facades, battlefield effects, and environmental effects such as mosque domes and minarets. Our COE/MOUT sites coupled with the finishing effects of our Faux Mud or Mil-Wraps provides the most realistic look of a village available.

20' Electrical substation

- Lock-back doors and windows
- Steel entry and breachable doors
