

Exceptional Merino Wool Socks

Serket Socks use the highest quality US Merino wool fibers, combined with state-of-the-art dyeing, spinning and strategic zone knitting techniques, to create exceptionally soft Merino wool socks built for optimal comfort and performance. Made with the **highest quality worsted yarn**, Serket socks have more Merino fibers per inch, creating a luxuriously soft end result that is never scratchy, itchy or bulky. The most durable Merino wool yarns available, long staple worsted yarns greatly **reduce the loose fibers that lead to pilling and wear**. Precisely engineered to meet the fit and performance needs of military and law enforcement professionals, Serket socks provide **unparalleled comfort and durability**.

Superior Performance – The hydrophilic and hydrophobic properties of Serket US Merino wool work together to maintain a complex moisture-management system. Serket’s US Merino fibers can absorb up to 30% of its weight in moisture, while naturally **wicking moisture away from the skin**. Unlike cotton, synthetics or inferior wool products, Serket Merino wool socks remove perspiration between the skin and sock interior and **maintains its thermal properties even when wet**. Serket Merino wool is **naturally anti-microbial** and proven to be more odor and bacteria resistant than cotton or synthetic fabrics.

Not All Wool Socks are Created Equal - No laboratory has been able to create a synthetic fiber that can match wool’s natural performance properties. There is a wide range of wool variance, with specific fiber specs, including micron (fiber diameter), length of fiber, coefficient of fiber variance and strength. Heel and toe areas are reinforced with the highest quality color extruded nylon for maximum durability with **ventilation panels and strategic zone knitting** to improve fit, function and breathability. The Serket team has spent years producing quality wool products and has the expertise to select only the best fibers with very rigid specifications. Serket uses the latest highly advanced dyeing, spinning, knitting techniques and equipment -The result is high performance USA sourced and produced Merino wool socks whose **quality, durability and comfort is unmatched**.

| Sock Size Chart | Women's | Men's |
|-----------------|-----------|-----------|
| Small | 4 - 6.5 | N/A |
| Medium | 7 - 9.5 | 6 - 8.5 |
| Large | 10 - 12.5 | 9 - 11.5 |
| X-Large | N/A | 12 - 14.5 |

| Serket Part # | Item Descriptions | Colors | Heights | Weights |
|---------------|------------------------------|-----------------------------------|------------|-----------------|
| 815-CGC | Graduated Compression Sock | Coyote Brown | Over-calf | Lightweight |
| 817-LGC | Graduated Compression Liner | Coyote Brown | Over-calf | Lightweight |
| 816-TWB | Tropical-weight / Lower-calf | Coyote Brown, Predator Tan 499 | Lower-calf | Tropical-weight |
| 809-LTB | Lightweight / Mid-calf | Coyote Brown, Predator Tan 499 | Mid-calf | Lightweight |
| 810-MTB | Mid-weight / Mid-calf | Coyote Brown, Predator Tan 499 | Mid-calf | Mid-weight |
| 811-HTB | Heavy-weight / Mid-calf | Coyote Brown | Mid-calf | Heavy-weight |
