Patriot Products has created the first truly kit-build Live Fire Shoothouse which can be assembled by your assets for tremendous savings if desired. We can build complete or instruct your crew how. This shoothouse comes in a prefinished, "out of the box" ready to go kit. We can custom design to your needs or recommend many variations. The layout configurability is endless. No field cutting of any component required, this shoothouse is guaranteed to assemble 100% certified ballistically safe. Comes with or without lead cleanouts. Patriot uses our trademarked DenShield for all door frames for long blast breaching life and blast resistance. We utilize only the best certified AR-500 ballistic steel and our superior vulcanized ballistic rubber which outlasts typical common cold pressed rubber 3 to 1. Superior safety, superior life, superior performance equals a superior Shoothouse!
