- 250 lb. Payload
- Lg-Range Hit Detect (option)
- 10-12mi transport on charge
- Stop/Pause on Hit (option)
- Easy 2-man carry/transport

Patriot Products is pleased to offer the industry's best Remote-Controlled Trackless Running Man Target. Its unique and robust design offers characteristics that are unsurpassed by others. Designed to run in all weather and rough environment, REMT-5 can navigate over uneven terrain others cannot. The joystick control 360° zero-turn ability allows you to travel through the most intricate of obstacles. The (optional) selectable hit detect technology with timed automatic or manual restart gives you a dead stop and an up to 5-second programmable pause that is easily discernable from long distances, along with a HIT indicator light on the wireless control panel. These units with their rigid frame and heavy-duty body construction can run through standing water, snow, sand/gravel, and tall grass with ease.

The Controls are housed in a waterproof case for operation and storage. The Smart Charging Deep- Cycle Technology provides an expected battery life between 200 and 1000 charge/discharge cycles depending on the average depth of discharge. The full 1-year warranty includes the battery as well for normal wear and tear.
