WHO WE ARE

ALWAYS IMPROVING. ALWAYS BETTER.

Since our beginning in 2004, we strive for excellence in all we do and to exemplify that excellence in our products and design. We are committed to those we serve to deliver innovative gear with superior quality.

Blue Force Gear, Inc. is not satisfied with making the same thing as everyone else - merely changing the color or style. We design by a code of advancement - if we can't make something better than what is currently available, we don't make it. By continually innovating, our products will always be different.

We are proud to have pioneered technological innovations that have revolutionized load carriage, the world's standard in weapon slings and the world's lightest, MOLLE compatible load carriage.

Of course we are not stopping there. We are continually improving our gear lineup and looking for more ways to improve the tactical gear industry and ultimately the warriors here at home and worldwide.

Blue Force Gear is committed to American Manufacturing. All of our gear is made right here in the U.S. with American materials.

Consistent Improvement. It's who we are... And it's what we do.

FEATURES & COLOR

ICON AND COLOR TAB INFORMATION KEY

MOLLEminus® The Molle field has now been changed to all slots which gives greater flexibility in mounting pouches and maximum signature reduction without having another layer of material underneath.

Concealment Capabilities Gear with this icon contains pockets, holsters, or support attachments for readily concealing firearms or other mission critical equipment.

Lightweight Items with this icon have been designed with the operator's speed, range of motion, and overall combat effectiveness in mind. All material unnecessary to the structural integrity of the item has been removed, reducing all gross weight possible.

Low Profile Items with this icon were made to lower or remove the combative profile of the user. Intended for operators who need to seamlessly blend in with the surrounding public while retaining an edge for high survivability in defensive situations.

Holster (pistol retention) These items are either pistol holsters or are capable of safely retaining pistols.

Helium Whisper® These items are built with Helium Whisper technology. This precision-cut Molle compatible attachment system, reduces weight and provides a more reliable coupling than legacy attachment systems.

HEAVY DUTY This product includes heavy duty metal components, designed to hold up in the harshest of conditions.

Pistol Magazine Retention These items retain multiple sizes or caliber of pistol magazines currently available.

Rifle Magazine Retention This item retains rifle magazines and is available for multiple calibers and sizes.

TEN-SPEED® Ten-Speed was designed to be the pouch you forget is there. The military grade elastic pouch was designed to be truly multi-use - holding magazines and other critical items - and lie flat when not in use. If you can fit the item in, it's now that item's pouch. Once removed, the pouch disappears.

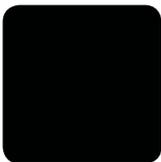

ULTRAComp® Product contains ULTRAComp, a high-performance laminate that far exceeds the military standard air textured nylon in tear and abrasion resistance. Its hydrophobic nature allows products to stay dry and light, whereas air textured nylon retains water and gets even heavier when wet.

Water Resistant These items contain water resistant materials that cut down on water retention, allowing the wearer to go unimpeded by excess weight gain due to moisture collecting materials.

Medical This product is medically oriented or is designed to be capable of supporting a medical role.

BFG TECHNOLOGY

THE SCIENCE OF COMBAT EFFECTIVENESS

TECHNOLOGY

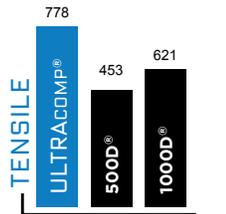

ULTRACOMP®

QUALITY, EFFICIENCY, & BETTER MANUFACTURING

ULTRACOMP® is a high-performance laminate that far exceeds the military standard air textured nylon in tear and abrasion resistance. Its hydrophobic nature allows products to stay dry and light, whereas air textured nylon retains water and gets even heavier when wet.

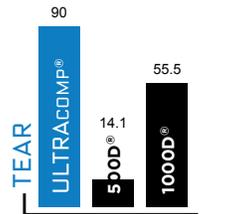

ULTRACOMP® combines the durability of a polymer based laminate with the benefits of a CORDURA® face fabric. This is a case where the sum is greater than the parts in creating a unique material resistant to tear, abrasion and water all while reducing IR signature in a number of colors and camouflage patterns. The combined strengths of the two materials becoming one pushes the limits on design while exceeding established standards of strength and durability.

Typical Value, LBS - Warp*

Superior Tensile Strength

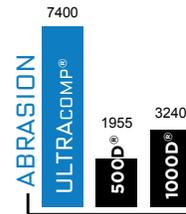

Testing per Fed Std 191A, Method 5100 Grab Tensile. ULTRACOMP® minimum 500lbs warp and fill.

Typical Value, LBS - Warp*

Exceeding Tear Values

Testing per Fed Std 191A, Method 5134 Tongue Tear. ULTRACOMP® minimum 55lbs warp and fill.

Typical Value in Cycles

High Abrasion Resistance

Testing per Taber Abrasion, H-18, 500 grams, cycles to wear through.

MOLLEminus®

FURTHER WEIGHT SAVINGS WITH ULTRACOMP®

MOLLEminus is a revolutionary load carriage platform that is fully MOLLE compatible while being the lightest on the market. The same way we made the lightest MOLLE pouch attachment - Helium Whisper™ - system with one piece Helium Whisper backers, MOLLEminus™ is a MOLLE compatible platform constructed out of one piece of ULTRACOMP™. The MOLLE field has been changed to all slots which gives greater flexibility in mounting pouches and maximum signature reduction without having another layer of material underneath.

TEN-SPEED®

THE LIGHTEST MULTI-USE POUCHES LIES FLAT WHEN EMPTY

FITS OTHER GEAR

Ten-Speed® was designed to be the pouch you forget is there. The military grade elastic pouch was designed to be truly multi-use - holding magazines and other critical items - and lay flat when not in use. If you can fit the item in, it's now that item's pouch. Once removed, the pouch disappears.

This unique criteria came from our elite military users - units whose mission include "tube fighting" - in planes, trains, and buses. In this even closer, more compact CQB, bulky pouches, can snag or slow you down - time lost that could be the difference between mission success and failure.

Ten-Speed pouches are built with the Helium Whisper® Attachment System achieving the slimmest profile and lightest weight. The backer is constructed of ULTRAcamp® making the pouches incredibly tough. Ten-Speed® pouches come in size ranges built around weapon magazines.

HELIUM WHISPER®

WORLD'S LIGHTEST ATTACHMENT SYSTEM

Helium Whisper® has revolutionized the modular load carriage system by creating a new standard of modular attachment system suitable for the demands on modern gear. Helium Whisper is the thinnest, strongest, lightest MOLLE attachment system in existence.

The heart of Helium Whisper® technology is the single-piece modular backer made of a high-performance laminate called ULTRAcamp®. Lighter and simpler MOLLE backers eliminate the weight penalty of modularity while offering other benefits that exceed current issue load carriage.

MILLS BELT

Shortly after the Civil War, Anson Mills developed a unique process to produce a cartridge belt on a single milling loom. Being made out of a single piece of material was a huge labor and weight savings. It set the stage for modern Load Carriage Equipment (LCE).

M1956LCE

Stemming from the success of the World War 2 era M1923, M1926, and M1927 cartridge belts, the M1956LCE can be considered the first modular LCE. It used a single "pistol" belt with removable modular pouches to support the variety of small arms in the U.S. inventory.

M1967 and ALICE LCE

Similar to the M1956LCE, ALICE consisted of a modular belt with enhanced suspenders as a platform for the modular pouches. The heavy, environment-susceptible cotton duck fabric was replaced with lighter nylon fabric and webbing. Plastic and aluminum hardware also replaced the heavy corrosion-prone brass and steel.

LBV88 / ILBV

An addition to the ALICE system, the LBV88 / ILBV added a vest portion to the long-serving "pistol" belt adding both comfort and the ability to carry more equipment distributed evenly across the chest and waist employing the same heavy ALICE clips made of metal.

MOLLE

Modular Lightweight Load-carrying Equipment (MOLLE) was first introduced in the late 1990's. Modularity was achieved by installing the modular attachment system to each pouch - stiffened tabs that are woven through corresponding loop fields on the modular platform. Through lighter than metal ALICE clips, the redundant webbing and fabric used in the MOLLE system still burdened the soldier with extra weight.

HELIUM WHISPER®

Little has changed in load carriage since the widespread adoption of the MOLLE system. The pace and demand of modern operations make every gram crucial to the survivability of the warfighter that wears it.

LIGHT INFANTRY LOADOUTS OVER THE DECADES

VICKERS SLINGS™

THE WORLD'S STANDARD IN WEAPON SLINGS

THE WORLD'S STANDARD IN WEAPON SLINGS

The Patented Vickers Combat Applications Sling™ has revolutionized the way we carry rifles. Developed with industry friend, firearms expert, and former 1st SFOD - Delta operational member Larry Vickers, the Vickers Combat Applications Sling™ incorporates key features from real world experience that makes this effective and durable sling the choice sling requested by name. Over 300,000 Vickers Slings™ are in use across all branches of service, as well as with allies abroad.

Specs:

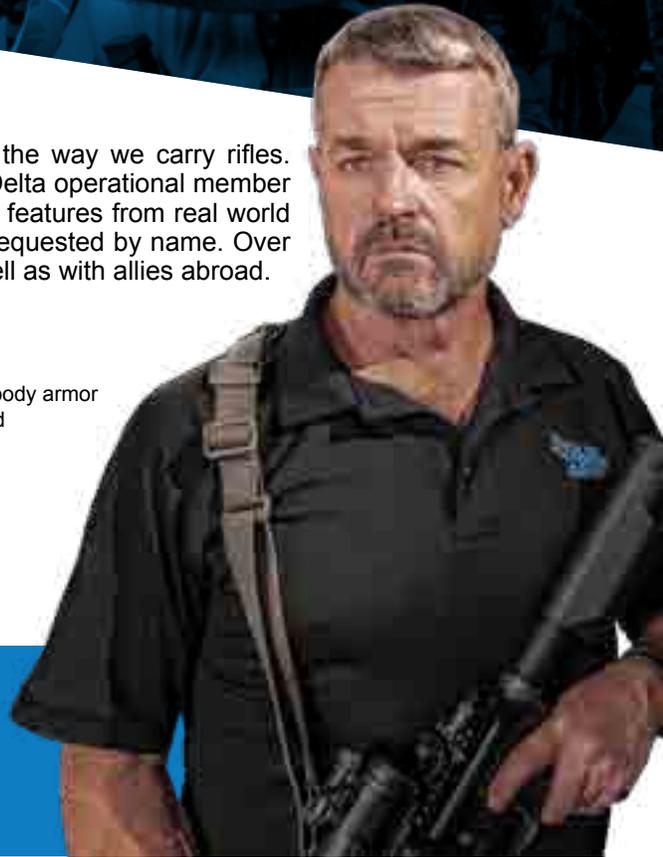

- 1.25" Sling webbing on the front
- 2.00" Tubular Webbing on padded models
- Overall length is adjustable to accommodate different sized weapons, with or without body armor
- Maximum Unpadded Sling Length – 54" with the Adjuster tightened / 64" fully extended
- Maximum Padded Sling Length – 57" with the Adjuster tightened / 67" fully extended

Build:

- Invista solution dyed CORDURA® webbing
- Patented Quick Adjuster with Contrasting Pull Tab
- Nylon hardware : glass reinforced DuPont Zytel® Nylon
- Metal hardware : Anodized machined aluminum adjuster, phosphate steel triglides

LARRY VICKERS (LAV)

LARRY VICKERS IS A RETIRED US ARMY 1ST SFOD - DELTA COMBAT VETERAN WITH YEARS OF EXPERIENCE IN THE FIREARMS INDUSTRY AS A COMBAT MARKSMANSHIP INSTRUCTOR AND INDUSTRY CONSULTANT.

Anatomy of The VICKERS SLING™

1. Invista solution-dyed CORDURA® nylon webbing
2. All-new triglides lay flatter
3. Lightweight glass reinforced DuPont Zytel® nylon hardware
4. Snag-free sewing detail
5. 2" Tubular Padding (Padded models only)
6. Ends attach directly to weapon or additional sling hardware

VCAS-125-OA (NYLON) | VCAS-125-OM (METAL)

VICKERS SLING™

The Standard Issue Vickers Sling is the world's standard in combat weapon slings. After extensive testing and combat evaluations, it's been adopted across all branches of US service and is issued with the USMC M27 Infantry Automatic Rifle and authorized for use with the M4, M4A1, and M16 series weapons and is even used by foreign allies worldwide.

RIFLE SLINGS

NOBODY MAKES THE SLING YOU WANT?

BUILD IT YOURSELF!

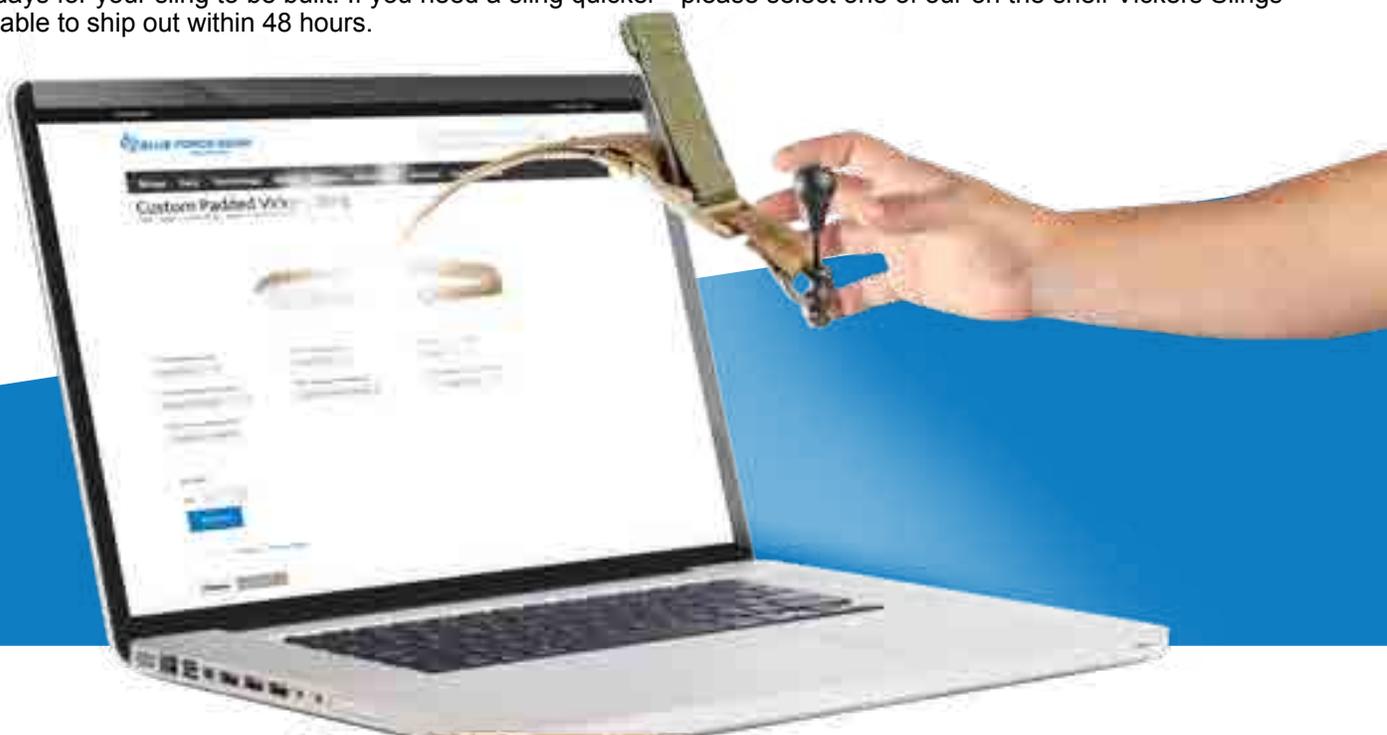

WELCOME TO THE CUSTOM VICKERS SLING BUILDER!

The Custom Sling Builder allows you to make the perfect custom sling for your individual weapon. From unique color combinations of webbing and hardware to hardware sewn on for a specific weapon, it's all possible now!

For the first time users - please read through so we can make you the best sling possible. Follow the steps below to choose how the sling is built - with 12 color options, 7 hardware versions, and 14 front and rear hardware attachment options there are thousands of possibilities. We'll walk you through the process to give you the best sling with the best fit!

The Sling Builder walks you through the components of the sling starting at the front - the Adjuster side. This would be the end that attaches towards the muzzle of an AR15, AKM, or similar modern sporting rifle or shotgun. As you select each option, you will see your sling being "built" in the image to the left. What you see is what you will get!

Each sling you build will be custom sewn by one of our expert sling sewers in our Savannah Georgia facility. Please allow an extra 3 days for your sling to be built. If you need a sling quicker - please select one of our on the shelf Vickers Slings that will be able to ship out within 48 hours.

EVERYTHING YOU NEED TO SUCCEED

UWL-UL2-125-XX

BELT FED LOOP

The Belt Fed Loop offers a loop-and-lock attachment system for securing the weapon sling to the rifle. The forged aluminum body makes it the toughest, most heat resistant hardware from the BFG sling loop series. This design allows for the same versatility found in the UWL, without needing to remove the sling from the hardware.

UWL-PB-P-275-XX

MOLDED UWL

The Molded Universal Wire Loop™ brings the unparalleled versatility of the Universal Wire Loop with a lighter more cost effective assembly. The Molded UWL™ allows for a Vickers Sling or other slings 1.25" or thinner to attach to eyelets, slots, rail holes, or other unique mounting points on weapons.

UWL-325-XX (3.25")

UNIVERSAL WIRE LOOP

UWL-625-XX (6.25")

The Universal Wire Loop is one of the most versatile sling attachment points made. A flexible nylon coated stainless steel wire allows for a sling attachment through eyelets, loops, slots, or any other opening that the wire fits through.

UWL-UL1-100-XX (1")

ULOOP FOR SLINGS

UWL-UL1-125-XX (1.25")

The world no longer has to tolerate loud, jangly sling attachments, hooks that eat up aluminum and plastic eyelets, or hardware pieces that take too long to attach and remove. With the Patent Pending ULoop finally on the scene, the hook and clip extinction event has begun.

P-HK-100-XX

HK STYLE SLING HOOK

Sling Snap Hooks are fast, secure sling attachment hardware that allows quick installation and removal of any sling they are attached to. The Sling Snap Hook has a 1" sling slot and fits on any Vickers Combat Applications Sling.

P-MASH-100-XX

LOW PROFILE SLING HOOK

MASH Hooks are an excellent alternative to HK Hooks and provide a secure and fast sling connection for weapons with larger eyelets such as AKs. The MASH Hook is activated by squeezing the center tabs together which opens the gate for installation and removal from eyelets.

P-RED-100-XX (1")

RED™ SWIVEL

P-RED-125-XX (1.25")

The Red Swivel is a true emergency quick release swivel that allows the user to quickly free himself from his weapon for emergency egress and other times when the user must untangle himself from his weapon.

P-PB-100-XX

HEAVY DUTY PUSH BUTTON 1"

The Push Button QD Sling Swivel provides a secure, quiet sling attachment point and allows slings to be quickly removed and installed on multiple weapons. The Push Button Sling Swivel can be threaded on to any Vickers Sling.

P-PB-125-XX

HEAVY DUTY PUSH BUTTON 1.2"

The Push Button QD Sling Swivel provides a secure, quiet sling attachment point and allows slings to be quickly removed and installed on multiple weapons. The Push Button Sling Swivel can be threaded on to any Vickers Sling.

SLING MOUNTS & HARDWARE

EVERYTHING YOU NEED TO SUCCEED

ACCESSORIES

P-PBF-P-125

BURNESED SOCKET

The Burnsed Socket is a standalone part that turns a Vickers Combat Applications Sling into a 2 to 1 Point convertible sling when used in conjunction with a Push Button Sling Swivel or RED Swivel.

RMFL-125-XX

RAIL MOUNTED FIXED LOOP

The Rail Mounted Fixed Loop (RMFL) allows a quiet, secure sling mount to railed forends. Machined from aluminum and hard coat anodized, the RMFL provides a solid and silent sling loop on MilSpec 1913 hand guard rails (may require minor fitting on others).

P-SSQD-125-XX

HEAVY DUTY SIDE RELEASE

The Side Release Swivel allows for the secure attachment of a VCAS to traditional sling swivel studs found on many hunting rifles, shotguns, and modern bolt action rifles. The Side Release Swivel provides a 1.25" sling slot and is phosphate finished for corrosion protection.

HC-XX

ELASTIC HOOK COVER

The Elastic Hook Cover installs over attachment hardware such as Sling Snap Hooks or MASH Hooks and reduces noise and prevents scratching of the weapon's finish. The Hook Covers are slightly tapered to fit securely on hooks or other hardware.

SLINGSLEEVE-500-XX

SLING SLEEVE

The Sling Sleeve™ is a 5" long tube of military grade elastic that holds your sling neat and snag-free but remains ready for instant deployment. To use, "Z fold" your sling taut and slip the Sling Sleeve over the bundle. To deploy, simply grab the sling and pull.

A2B-XX

A1/A2 BUTTSTOCK ADAPTER

The A1/A2 Buttstock Adapter (A2B) provides an ambidextrous connection point on the top of M16/AR15 A1, A2 and A4 buttstocks. The A2B brings the sling attachment point to the top of the weapon, reducing the tendency for the weapon to flip upside down. It works best when paired with the VCAS or Victory Two-Point Sling™.

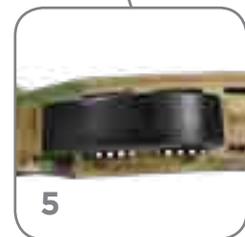

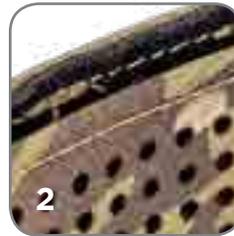

LIGHTWEIGHT MOLLEMINUS BELT

INTRODUCING BFG'S STRONGER, NATURAL FORM-FITTING BELT

MM-BELT-04

LIGHTWEIGHT MOLLE MINUS

The Lightweight MOLLEminus Belt is a revolutionary approach to the modern battle belt – able to act as a low profile pistol belt or a full capacity MOLLE belt kit. The Belt starts with an inner belt that is worn weaving through your pant loops and is reversible to be pattern matched and can be worn as a standalone pistol belt. The outer belt is fully MOLLE compatible with MOLLEminus™ technology using slots instead of traditional webbing.

Anatomy of LIGHTWEIGHT MOLLEMINUS BELT

1. Natural contours for correct body alignment
2. Separate inner belt for quick belt removal
3. MOLLEminus slots
4. Heavy duty Cobra Buckle
5. Heavy duty handle

BELT MOUNTED POUCHES

PUSHING THE STANDARDS FOR COMBAT LOAD CARRIAGE

POUCH/HOLSTERS

M-HOLSTER-G43-01-XX

ULTRACOMP POCKET HOLSTER

M-HOLSTER-G42-01 M-HOLSTER-LCP-01
M-HOLSTER-238-01 M-HOLSTER-MICRO-01
M-HOLSTER-938-01 M-HOLSTER-SWBG-01
M-HOLSTER-SHIELD-01 M-HOLSTER-JFRAME-01

The thinnest pocket holster available today. The ULTRACOMP® Pocket Holster removes unnecessary bulk by combining the ultra-thin ULTRACOMP material with model specific designs.

BT-TSP-CUFF-01-XX

TEN-SPEED CUFF POUCH (BELT)

The Belt Mounted Cuff Pouch holds a set of cuffs for undercover or plain clothes use. The Ten-Speed military grade elastic holds one set of linked or hinged handcuffs secure with a metal snap at the top of the pouch. The pouch uses a hook and loop closure system to attach to belts or duty belts up to 2.0 inches in width.

BT-OC-01-XX

PEPPER SPRAY POUCH (BELT)

The Pepper Spray Belt Pouch holds common pepper or OC spray canisters (Mk3 sized or 4-1/2" H x 1-1/2" D) in a slim, low profile belt mounted pouch. The pouch uses a hook and loop closure system to attach to belts or duty belts up to 2.0 inches in width.

BT-TSP-M4-LM-XX (LOW)

TEN-SPEED SINGLE (BELT)

BT-TSP-M4-1-HZ

The Low Rise M4 Belt Pouch combines the combat-proven Ten-Speed® military-grade elastic with a belt attachment system anyone can use. The Low Rise M4 Belt Pouch holds one M4 magazine or similar sized item lower on the belt for easier access during reloading.

BT-TSP-M4-HM-XX (HIGH)

TEN-SPEED SINGLE (BELT)

The High Rise M4 Belt Pouch combines the combat-proven Ten-Speed® military-grade elastic with a belt attachment system anyone can use. The High Rise M4 Belt Pouch holds one M4 magazine or similar sized item higher up on the belt for maximum concealability.

BT-DP-S-XX

MAGAZINE DUMP POUCH (BELT)

The Belt Mounted Dump Belt Pouch brings the redefining Ten-Speed® Ultralight Dump Pouch to your belt. While not in use, the pouch's bag portion stays folded under Ten-Speed® elastic, making it extremely compact. When needed, a simple pull on the bottom tab deploys a bag big enough to hold 10 M4 magazines.

BT-TSP-PISTOL-1-XX

TEN-SPEED PISTOL 1 (BELT)

The Belt Mounted Pistol Pouch brings combat-proven Ten-Speed multi-use pouches to a belt platform. The Ten-Speed® pouch securely holds a single pistol magazine while allowing for immediate accessibility. The pouch uses a hook and loop closure system to attach to belts or duty belts up to 2.0 inches in width.

BT-TSP-PISTOL-2-XX

TEN-SPEED PISTOL 2 (BELT)

The Belt Mounted Double Pistol Pouch brings combat-proven Ten-Speed multi-use pouches to a belt platform. The Ten-Speed® pouch securely holds two single pistol magazines while allowing for immediate accessibility. The pouch uses a hook and loop closure system to attach to belts or duty belts up to 2.0 inches in width.

BT-TSP-BATON-01-XX

TEN-SPEED BATON POUCH

The Baton Belt Pouch attaches to belts on regular everyday pants, rigger's belts or duty belts with a hook and loop attachment system. The attachment system is split so the pouch can be attached on both sides of a belt loop to keep the pouch from rotating.

MARCO

MORE LIGHT, LESS WEIGHT

Gone are the days of 100mph tape, 550 cord, and the frustration of your marking light bundles. Envisioned after many wasted hours of prepping traditional 4" and 6" chem lights, the MARCO® Marking Light Dispenser is an incredibly efficient and compact way to carry marking sticks for room clearing and many other applications. These disposable marking light stick dispensers take seconds to prep, rip open the foil packaging and slap the MARCO dispenser into the belt, MOLLE or Kydex carrying pouch.

The 2" marking lights put out the same light under night vision devices as taped up 4" or 6" chem lights and is designed to prevent accidental breaks and glow. The MARCO holds 30 - 2" marking lights that give roughly the same lumen output as a taped up 4" traditional chem sticks in a package smaller than a standard M4 STANAG mag.

The MARCO is perfect for night time or low level light tactical training - drop them in a line to create a visible firing line and drop one under each target to approximate target location.

MARCO-01-GREEN-1EA-XX

MARCO DISPENSER

MARCO-01-BLUE-1EA
MARCO-01-RED-1EA

The 2" marking lights put out the same light under night vision devices as taped up 4" or 6" chem lights and is designed to prevent accidental breaks and glow. The MARCO holds 30 - 2" in a package smaller than a standard M4 STANAG mag.

HW-TSP-MARCO-1-XX

MARCO POUCH SINGLE

The Ten-Speed Pouch for MARCO™ Dispenser is designed to be placed on any MOLLE compatible surface to provide easy access to the MARCO. The pouch is constructed of combat proven military grade Ten-Speed® elastic to securely retain the MARCO dispenser and the Helium Whisper® MOLLE attachment system.

BT-TSP-MARCO-1-XX

MARCO POUCH SINGLE (BELT)

The Ten-Speed Belt Pouch Hanger for MARCO® Dispenser is designed to be worn hanging off the belt or attached directly to combat pants. The pouch places the MARCO dispenser in a similar position as a 4- or 6-inch marking light bundle.

MARCO-01-GREEN-REFILL-1EA

MARCO REFILL PACK

MARCO-01-BLUE-REFILL-1EA
MARCO-01-RED-REFILL-1EA

The refill kit contains 30 individual 2" marking light sticks in a resealable bag and allows the user to load one or all of the light sticks in a MARCO Dispenser. Just tear the top off the resealable bag and gently load into the MARCO® dispenser.

BT-KYDEX-MARCO-01-XX

KYDEX MARCO POUCH (BELT)

The Kydex Pouch for MARCO® Marking Light Dispenser holds a single MARCO dispenser securely in a thermo-formed Kydex pouch. This heavy-duty belt-clip can be adjusted for right and left-hand use as well as for optimal position and angle. Simply slide the dispenser in place and you are good to go.

HW-TSP-M4-3-XX

TRIPLE M4 MAG POUCH

The Ten-Speed™ Triple M4 Pouch is a multi-use magazine pouch that is the perfect blend of speed and security. Made of military grade elastic, the pouch holds three M4 mags or similar sized items. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-TSP-M4-1-HZ-XX

SINGLE M4 MAG POUCH HORIZONTAL

The Ten-Speed Single M4 Mag Pouch holds one M4 magazine and is the perfect blend of speed and security. Ten-Speed® pouches use military grade elastic combined with ULTRAcomp™ to create a multi-use pouch that is weighs almost nothing and lays flat when not in use.

HW-TSP-M4-3-HZ-XX

TRIPLE M4 MAG POUCH HORIZONTAL

The Ten-Speed™ Triple M4 Pouch is a multi-use magazine pouch that is the perfect blend of speed and security. Made of military grade elastic, the pouch holds three M4 mags or similar sized items. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-TSP-M4-1-SB-XX

SINGLE M4 MAG POUCH (STACK)

The Ten-Speed® Single Stackable M4 Pouch is a multi-use magazine pouch. Made of military grade elastic and ULTRAcomp™ laminate, the Single M4 Pouch holds one M4 mag or similar sized items such as flash bangs or trauma dressings. When empty, the pouch lies flat for less bulk.

HW-TSP-M4-2-SB-XX

DOUBLE M4 MAG POUCH (STACK)

The Ten-Speed® Double Stackable M4 Pouch is a multi-use magazine pouch. Made of military grade elastic and ULTRAcomp™ laminate, the Double M4 Pouch holds two M4 mags or similar sized items such as flash bangs or trauma dressings. When empty, the pouch lies flat for less bulk.

HW-TSP-M4-3-SB-XX

TRIPLE M4 MAG POUCH (STACK)

The Ten-Speed® Triple Stackable M4 Pouch is a multi-use magazine pouch. Made of military grade elastic and ULTRAcomp™ laminate, the Triple M4 Pouch holds three M4 mags or similar sized items such as flash bangs or trauma dressings. When empty, the pouch lies flat for less bulk.

HW-TSP-SR25-1-XX

SINGLE SR25 MAG POUCH

The Ten-Speed™ Single SR25 Pouch is a multi-use magazine pouch that is the perfect blend of speed and security. Made of military grade elastic, the pouch holds one SR25 mag or similar sized item. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-TSP-SR25-2-XX

DOUBLE SR25 MAG POUCH

The Ten-Speed™ Double SR25 Pouch is a multi-use magazine pouch that is the perfect blend of speed and security. Made of military grade elastic, the pouch holds two SR25 mags or similar items. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-TSP-SR25-3-XX

TRIPLE SR25 MAG POUCH

The Ten-Speed™ Triple SR25 Pouch is a multi-use magazine pouch that is the perfect blend of speed and security. Made of military grade elastic, the pouch holds three SR25 mags or similar items. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-M-2M4-1-XX

DOUBLE M4 MAGAZINE POUCH

The Double M4 Magazine Pouch holds two M4 magazines. An elastic band keeps two mags quiet and when one mag is removed, keeps the remaining mag in place. The Double M4 Mag Pouch is half the weight of current Issue mag pouches without sacrificing durability or security.

HW-M-MN-M4-1-XX

SINGLE MAG NOW! POUCH

This pouch is an immediate-access open-top magazine pouch that uses molded rubber "pull tabs" instead of sewn webbing via traditional bungee pouches. The Mag NOW! Pouch is built with ULTRAcomp® and has a MOLLEminus™ front, making it "stackable" with other MOLLE pouches.

HW-M-MN-M4-3-XX

TRIPLE MAG NOW! POUCH

The Triple M4 Magazine Pouch is an immediate-access open-top magazine pouch that uses molded rubber "pull tabs" instead of sewn webbing via traditional bungee pouches. The Mag NOW! Pouch is built with ULTRAcomp® and has a MOLLEminus™ front, making it "stackable" with other MOLLE pouches.

HW-M-PISTOL-1-XX

SINGLE PISTOL MAG POUCH

The Single Pistol Mag Pouch holds a single or double stack pistol mag (up to and including double stack HK45 mags), a light, or multi-tool. Only occupying 2 rows of MOLLE, the Single Pistol Mag Pouch can be mounted on the sides of the Admin Pouch or on top of the Trauma Kit NOW!™.

HW-TSP-PISTOL-1-XX

SINGLE PISTOL MAG POUCH

The Ten-Speed™ Single Pistol Mag Pouch is a multi-use magazine pouch. Made of military grade elastic, the Single Pistol Mag Pouch holds almost any single or double stack pistol mag. When empty, the pouch lies flat and the Helium Whisper® attachment system is 26% lighter and is the lightest magazine pouch on the market.

HW-TSP-PISTOL-2-XX

DOUBLE PISTOL MAG POUCH

The Ten-Speed™ Double Pistol Mag Pouch is a multi-use magazine pouch. Made of military grade elastic, the Double Pistol Mag Pouch holds almost any single or double stack pistol mag. When empty, the pouch lies flat and the Helium Whisper® attachment system is the lightest magazine pouch on the market.

HW-TSP-PISTOL-2-02-XX

DOUBLE PISTOL MAG POUCH V2

The Double Pistol Mag Pouch holds single or double stacked pistol mags (up to and including double stack HK45 mags), a light, or multi-tool.

MAGAZINE & MUNITION POUCHES

PUSHING THE STANDARDS FOR COMBAT LOAD CARRIAGE

LOAD CARRIAGE

HW-M-FLARE-XX

POP FLARE POUCH

Fits either one star cluster or parachute signal flare. Also works with some firearm suppressors that are less than 1.5" in diameter and greater than 9" in length like the Surefire FA762SS or AAC MK13-SD™.

HW-M-FRAG-1-XX

FRAG GRENADE POUCH

The Frag Grenade Pouch holds one M67 type fragmentation grenade secure and quiet with a flap fastened by a side release buckle. The patented Helium Whisper® attachment system makes this pouch the lightest on the market at a mere 35 grams.

HW-M-SMOKE-1-XX

SMOKE GRENADE POUCH

The Smoke Grenade Pouch holds one M18 smoke grenade secure by a hook and loop flap. The patented Helium Whisper® attachment system is compatible with all MOLLE platforms and makes this Smoke Grenade Pouch the lightest on the market.

UTILITY & GENERAL PURPOSE

PUSHING THE STANDARDS FOR COMBAT LOAD CARRIAGE

LOAD CARRIAGE

HW-M-ADMIN-SM-XX

ADMIN POUCH, SMALL

The Small Admin Pouch is designed to hold smaller, everyday items such as a small spiral notebook, chemlights, flashlights, multi-tools, or other essentials at hand and easily accessible. Elastic loops sewn to the back panel help keep contents – pens, sharpies, knives, lights, and other similar sized items organized.

HW-M-ADMIN-XX

ADMIN POUCH

The Admin Pouch is a low profile administrative pouch used for everyday items. The main compartment was designed to fit a leader's notebook. There's also a divider with three Ten-Speed™ elastic slots (two 3" x 4" and one 2" x 4") used for organizing smaller items. Includes one drain hole.

HW-M-BBK-EMPTY-XX

BOO BOO KIT POUCH, EMPTY

The Boo Boo Pouch™ is a small universal utility pouch that was originally designed to carry everyday first aid items rather than lifesaving supplies. This Pouch can also hold 30 rounds of 5.56 on stripper clips, handcuffs, a cleaning kit, batteries, or two cans of Vitamin N. Only takes up a 2 x 2 section of MOLLE.

HW-M-DP-S-XX

ULTRALIGHT DUMP POUCH

The Ten-Speed™ Ultralight Dump Pouch is the world's smallest and lightest dump pouch. Taking up a mere 2x2 MOLLE field, the Dump Pouch is hardly noticed until you need it. A small pull tab at the bottom of the pouch deploys the 70D Ripstop nylon bag that expands to roughly 264 cubic inches.

HW-M-DP-MD-XX

DUMP POUCH, MEDIUM

The Medium Dump Pouch is a larger dump pouch that is able to be stowed and was designed for extended overt use. A "fish trap" style flap at the top allows magazines and other items to be immediately stored, but offers additional security that keeps all items stowed when going to prone or getting in or out of vehicles.

HW-M-MBITR-XX

MULTI-RADIO POUCH

The Multi-Radio Pouch fits the Thales MBITR Radio and is also compatible with the Harris Falcon III (PRC 152) or other similarly sized radios. The bottom flap of the Radio Pouch allows the user to change out the battery of most units without removing the radio from the pouch.

HW-M-UPZ-S-XX

UTILITY POUCH, SMALL

The Small Utility Pouch is a general purpose pouch for smaller items. Able to fit a BA5590 battery, the Small Utility Pouch can also be used for cleaning kits, multi-tools, strobes, paracord, pistol mags, or E&E items. Paracord loops on the inside can be used to tie off important items.

HW-M-UPZ-H-M-XX

UTILITY POUCH, MEDIUM

The Medium Horizontal Utility Pouch is a general purpose pouch for smaller items. The Medium Horizontal Utility Pouch can be used to hold medical supplies, extra batteries, spare mags, multi-tools, and other necessary items. Paracord loops on the inside can be used to tie off important items such as compasses or GPS.

HW-M-UPZ-L-XX

UTILITY POUCH, LARGE

The Large Utility Pouch is a general purpose pouch for smaller items. The Large Utility Pouch can be used to hold 10 spare mags, medical supplies, extra batteries, multi-tools, and other necessary items. Paracord loops on the inside can be used to tie off important items such as compasses or GPS units.

MEDICAL KITS & POUCHES

EMERGENCY MEDICAL RESPONSE

LOAD CARRIAGE

TSP-TQ-01-XX

TOURNIQUET HAMMOCK

The Hammock is the quick and easy way to carry a Tourniquet or other similar sized objects, on an existing belt or MOLLE mounted pouch. It requires no additional mounting space and protects the tourniquet. It also keeps your tourniquet readily accessible right below your Micro TKN or other MOLLE mounted equipment.

M-TNS-XX

TOURNIQUET NOW! STRAP

The Tourniquet NOW!™ Strap is two elastic loops that secure a NATO style webbing tourniquet while only taking up 3 vertical MOLLE loops. The TNS is compatible with any MOLLE platform and also fits perfectly on top of the Trauma Kit NOW!™ or on either side of the Admin Pouch.

BT-TQ-01-XX

TOURNIQUET NOW! POUCH

The Tourniquet NOW!™ Pouch is the perfect balance between speed and protection, in a platform that allows you to add a tourniquet for your everyday carry. The TQ Pouch gives you superior protection yet quick access to your CAT or other similarly sized tourniquets.

Shown Filled With ADVANCED TRAUMA KIT CONTENTS

- 1. Size 28 Nasopharyngeal Airway
- 2. Six 2" x 9" Frog Tape
- 3. Hyfin Vent Chest Seal Twin Packs
- 4. Heavy Duty Medical Gloves

MEDICAL KITS & POUCHES

EMERGENCY MEDICAL RESPONSE

TKN-003

MICRO TRAUMA KIT NOW!

The Belt Mounted Micro Trauma Kit NOW! Allows you to carry a full trauma kit for EDC carriers, prepared citizens, and law enforcement professionals. Available in several colors and several options including empty, the Basic Refill Kit, and Advanced Refill Kit (see supplies below).

TKN-005

MICRO TRAUMA KIT NOW!

The MOLLE Mounted Micro Trauma Kit NOW! Allows you to mount trauma kit to any MOLLE field such as duty vests, belt kits, packs, or anywhere else. Available in several colors or filled options (see supplies below).

HW-M-TKN-FILLED-MD-XX

TRAUMA KIT NOW! MED. BASIC

The Medium Trauma Kit NOW!™ replaces the Individual First Aid Kit with its unique ability to deploy with one hand. It's built around the Army IFAK, and consists of two main components – the outer MOLLE compatible pouch and the removable inner supply chassis. Inside are six rows of heavy duty elastic for medical supplies.

HW-M-TKN-EMPTY-MD-XX

TRAUMA KIT NOW! MED. EMPTY

The Medium Trauma Kit NOW!™ replaces the Individual First Aid Kit with its unique ability to deploy with one hand. It's built around the Army IFAK, consists of two main components – the outer MOLLE compatible pouch and the removable inner supply chassis. Inside are six heavy duty elastic bands for medical supplies.

P-TKR-06

MTKN - BASIC REFILL KIT

A Basic Refill Kit designed specifically for the Micro Trauma Kit NOW!™ for its small size yet still covering the basics for severe bleeding and trauma.

P-TKR-03

MTKN - ADVANCED REFILL KIT

The Advanced Refill Kit was the original 'full featured' kit the MTKN was built around – ready for the top three threats – severe bleeding, occluded airway, and tension pneumothorax.

P-M-TKR

TRAUMA KIT SUPPLIES, MED. BASIC

The Trauma Kit Basic Medical Supplies provides a good starting point for the Trauma Kit NOW! medical pouch and serve as the basic essentials for treating gunshot wounds or other serious trauma.

P-TKR-04

TRAUMA KIT REFILL, MED. ADV.

The Advanced Medical Supplies is a more comprehensive refill kit designed to fit in the Trauma Kit NOW! Pouch.

DENIED AREA PATTERN PACKS

MAKING SURE YOU KEEP A LOW PROFILE

BACK PACKS

DAP-PACK-05-XX

JEDBURGH PACK

The Jedburgh Tactical Backpack is ready for any mission set – from discreet everyday carry, to on-duty, to downrange. This tactical backpack is sized around the typical day / assault pack and uses the modular Dapper accessory pouch system to keep your gear organized and in place. Unlike other common tactical backpacks, the Jedburgh pack lacks overt MOLLE webbing on every side of the pack. Only a two column wide MOLLEminus strip is on the front; going unnoticed except by those in the know. The pack is available in four solid colors – Black, Coyote Brown, OD Green, and Wolf Gray - and the more overt MultiCam.

DAP-PACK-06-XX

TRACER PACK

Designed to add additional capability in a “day pack” sized format, the Tracer Pack has features like side water bottle pockets, a quick access pocket on top of the pack for sunglasses, travel documents, charging cables, and an integrated laptop sleeve. The Tracer is slightly bigger than the Jedburgh Pack and features more built in organization on top of the Dapper compatibility.

DAPPER ACCESSORIES

GETTING YOUR GEAR ORGANIZED

DAPPER

DAP-ADP-XX

DAPPER ADMIN POUCH

The Admin Dapper Pouch is one of the more versatile Dappers™, and is able to hold M4 mags, assorted basic items and mission critical items. The Dapper Admin Pouch system is the ultimate in discreet, modular carrying, allowing the user to keep gear organized and accessible while being able to quickly change the load out.

DAP-LOOP-L-XX

DAPPER ACCESSORY LOOP LG.

The Large Accessory Loop Dapper holds larger items such as tourniquet straps, bandages, GPS units, or other mission critical items. The Large Accessory Loops can be mounted inside the Large Utility Dapper Pouch or directly in loop-lined packs and bags.

DAP-LOOP-S-HALF-XX

DAPPER ACCESSORY LOOP SM.

The Small Accessory Loop Dapper uses military-grade elastic to keep smaller items in place and organized. The smaller loops hold cables, batteries, chem lights, and other smaller items in place. The hook backing allows them to be mounted in loop-lined packs or inside the Large Utility Dapper Pouch.

DAP-LOOP-L-HALF-XX

DAPPER ACCESSORY LOOP LG.

The Large Accessory Loop Dapper holds larger items such as tourniquet straps, bandages, GPS units, or other mission critical items. The Large Accessory Loops can be mounted inside the Large Utility Dapper Pouch or directly in loop-lined packs and bags.

DAP-LOOP-M-XX

DAPPER ACCESSORY LOOP MD.

The Medium Accessory Loop Dapper holds medium-sized items such as 12-gauge shot shells, medical supplies, 550 cord, and other similar-sized items organized and untangled. The Medium Accessory Loops can be mounted inside the Mesh Utility Dapper or directly in loop-lined packs.

DAP-TSP-M4-3-XX

DAPPER TEN-SPEED M4 POUCH

The Ten-Speed Triple M4 Dapper combines Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry spare magazines or other equipment. Three military-grade elastic slots hold most M4 magazines, or other similar-sized items secure and in place.

DAP-LOOP-M-HALF-XX

DAPPER ACCESSORY LOOP MD.

The Medium Accessory Loop Dapper holds medium-sized items such as 12-gauge shot shells, medical supplies, 550 cord, and other similar-sized items organized and untangled. The Medium Accessory Loops can be mounted inside the Mesh Utility Dapper or directly in loop-lined packs.

DAP-LOOP-S-XX

DAPPER ACCESSORY LOOP SM.

The Small Accessory Loop Dapper uses military-grade elastic to keep smaller items in place and organized. The smaller loops hold cables, batteries, chem lights, and other smaller items in place. The hook backing allows them to be mounted in loop-lined packs or inside the Large Utility Dapper Pouch.

DAP-TSP-PISTOL-3-XX

DAPPER TEN-SPEED PISTOL

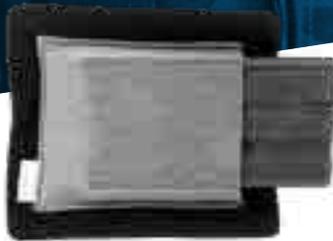

The Ten-Speed Triple Pistol Dapper combines Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry spare magazines or other items. Three military-grade elastic pockets hold most double or single stack pistol magazines, or other items secure and in place.

DAP-TSP-M4-1-XX

DAPPER TEN-SPEED M4 POUCH

The Ten-Speed Single M4 Dapper combines Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry a spare magazine or other equipment. A single military-grade elastic slot holds most M4 magazines, or other similar-sized items secure and in place.

DAP-TSP-SR25-1-XX

DAPPER TEN-SPEED SR25

The Ten-Speed Single SR25 Dapper combines Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry a spare magazine or other equipment. A single military-grade elastic slot holds most SR25 magazines, or other similar-sized items secure and in place.

DAP-TSP-PISTOL-1-XX

DAPPER TEN-SPEED PISTOL

The Ten-Speed Single Pistol Dapper combines Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry a spare magazine or other items. A single military-grade elastic pocket holds most double or single stack pistol magazines, or other items secure and in place.

DAP-U-VINYL-02-XX

VINYL UTILITY POUCH (7"X4")

The Vertical Utility Dapper Pouch is one of the more versatile Dapper Pouches, as it is able to hold almost anything from down range to downtown mission sets. Able to hold chargers, personal items, magazines or other mission critical items, the Vertical Utility Pouch keeps gear organized and in place.

DAP-U-VINYL-01-XX

VINYL UTILITY POUCH (7"X9")

The Large Utility Dapper Pouch is a larger utility pouch to hold most everyday items and mission gear such as chargers, personal items, tools, or almost any other item one would carry in a bag. It can be quickly installed and removed on any loop field to quickly change the load out, making it the ultimate in discreet, modular load carrying.

ALWAYS BETTER STORE

YOUR GEAR, STRAIGHT FROM THE MANUFACTURER

WE'RE OPEN FOR BUSINESS

Questions? Call 912.330.9166

Blue Force Gear is proud to put the finishing touches on a long time dream – creating a retail store to serve local military personnel, law enforcement professionals, and shooting enthusiasts. We wanted to create a destination store that carried products we like and appreciate as well as showcasing the full line of Blue Force Gear manufactured products.

Always Better Store

A few years back we summed up the ethos we shared around the BFG office that many of us brought in from our own diverse histories – being Always Better. This isn't a boastful claim that we are better than everyone else but conversely a humble approach to trying to become better every day. Other's put it as "constant never ending improvement". From there, we have been using it around the office and in our material – making it the perfect name for the new retail store.

The retail store is centered right in the front of our newly renovated 27,000 square foot manufacturing facility and world headquarters. We have not moved far from our original location, keeping in the Savannah Georgia area – a destination for over 6 million people each year that enjoy the historic southern charm, world class dining, and cultural scene.

ALWAYS BETTER STORE

Store Hours of Operation

Monday - Thursday 9AM - 7PM
Friday - Saturday 9AM - 8PM
Sunday 12PM - 5PM
