

ARCTIC FUELER

FUEL HANDLING GLOVE

The Arctic Fueler fuel handler's glove provides both protection and warmth combined with an advanced grip system. The Arctic Fueler's DWR Nomex® exterior and the POL breathable barrier are finished with Polartec® WindPro® FR against the skin for unmatched warmth and protection with a superior grip.

CHEMICAL LINER

Advanced chemical barrier ensures full protection from fuel and hazardous chemicals.

TOUCH-SCREEN ACTIVE

TouchSync technology allows for seamless interfacing with the growing amount of touch-screen devices in the field.

EMBEDDED BETWEEN INNER
LINER AND EXTERIOR
POLARTEC® WINDPRO® FR

01 GRIP LOCK TECHNOLOGY

Our 2-part proprietary grip system increases grip by nearly 300%.

04 TOUCH-SCREEN

Permanent TouchSync micro-material is embedded into both index and thumb leathers, enabling easy operation of phones and tablets.

02 PRE-CURVED DESIGN

All our gloves are cut and sewn to compliment the natural curvature of your hand. Strategic seam placement allows for maximum comfort.

05 FIRE-RESISTANT NOMEX®

Premium DWR Nomex® self fabric for complete fire resistance surrounding the hand and wrist.

03 SECURITY STRAP

Durable Velcro® strap made from rugged FR webbing, allowing for heat retention and secure fit.

06 WEATHER BARRIER

Premium insulation embedded underneath Nomex®, preventing heat loss, staying warm without sacrificing dexterity and function.
