

HAMMER

OPERATIONAL GLOVE

Rugged material and ridged knuckles take the Hammer glove beyond protection. With 4-way stretch Kevlar® fabric, Kevlar® thread, and digital goat skin leather, this glove is strength in its purist form.

PRECISION TRIGGER FINGER

Leather wrapped trigger finger for precise tactile feel and smooth trigger acquisition.

TOUCH-SCREEN ACTIVE

TouchSync technology allows for seamless interfacing with the growing amount of touch-screen devices in the field.

SPECS

01 GRIP SYSTEM

Our 2-part proprietary grip system increases grip by nearly 300%.

02 TOUCH-SCREEN

Permanent TouchSync micro-material is embedded into both index and thumb leathers, enabling easy operation of phones and tablets.

03 PRE-CURVED DESIGN

All our gloves are cut and sewn to compliment the natural curvature of your hand. Strategic seam placement allows for maximum comfort.

05 STRETCH KEVLAR®

4-way stretch Kevlar® material adds comfort and rugged abrasion resistance.

03 WRAPPED TRIGGER FINGER

Digital goat skin leather from the palm wraps seamlessly around the index, making a smooth and tactile trigger finger.

06 RIDGED KNUCKLES

Made from vulcanized rubber, sharpened at the ridges, these knuckles are both protective and flexible for a comfortable fit.
