

SCOUT

OPERATIONAL GLOVE

The Scout tactical glove is a short multipurpose glove produced from 100% Nomex®, smooth and digital goatskin leather, making this glove light, fire resistant and form-fitting. A Velcro® wrist strap ensures a secure comfortable fit.

PRECISION TRIGGER FINGER

Leather wrapped trigger finger for precise tactile feel and smooth trigger acquisition.

TOUCH-SCREEN ACTIVE

TouchSync technology allows for seamless interfacing with the growing amount of touch-screen devices in the field.

S P E C S

01 GRIP LOCK TECHNOLOGY

Our 2-part proprietary grip system increases grip by nearly 300%.

04 TOUCH-SCREEN

Permanent TouchSync micro-material is embedded into both index and thumb leathers, enabling easy operation of phones and tablets.

02 PRE-CURVED DESIGN

All our gloves are cut and sewn to compliment the natural curvature of your hand. Strategic seam placement allows for maximum comfort.

05 FIRE-RESISTANT NOMEX®

Premium Nomex® self fabric for complete fire resistance surrounding the hand and wrist.

03 WRAPPED TRIGGER FINGER

Digital goat skin leather from the palm wraps seamlessly around the index, making a smooth and tactile trigger finger.
