SUMMIT GLOVE SYSTEM

The Summit GS is a cold weather, interchangeable glove system, proudly constructed from the highest quality of American made materials and workmanship. Allowing for multiple glove configurations, this glove system provides full weather resistance and complete dexterity for today's modern operators.

SUMMIT TF SHELL

The Summit TFS is a three-finger mitt that was designed to meet and surpass the demands of the US Military operating in the coldest, wettest and harshest environments. While providing ultimate protection and durability, the Summit TFS allows operators great dexterity to carry out all tasks needed to conduct vital operations. This shell is breathable, waterproof, touch screen capacitive, and lined with a flame resistant material.

SUMMIT TF INSERT

The Summit TFI is a three finger insert glove that is designed to be the main glove liner for the Summit Three Finger Shell and can also be worn on its own as an operational glove. It provides a high level of warmth, durability and flame resistance with and without the Summit Shell. It is breathable, water repellent, touch-screen capacitive, and lined with a flame resistant material.

SUMMIT COMBAT GLOVE

The Summit Combat Glove is a full finger glove built for comfort, warmth, dexterity and durability that will tackle any mission in extreme terrain. It is made from durable Tweave and smooth waterproof goat leather for the ultimate operational mitt. It is breathable, water resistant and touch-screen capacitive. It is one of the most comfortable extreme gloves in the market.

MATERIALS LIST

SUMMIT TF SHELL

SHELL: 6.5 OSY Tweave material with both nylon and spandex for stretch and durability.

WATERPROOF INNER LAYER: Waterproof and breathable ePTFE insert barrier for full mitt waterproof protection.

INSULATION LAYER: Polartec Powerfill 170 gm. insulation

INNER LINER: Polartec® Wind Pro® FR lining for soft comfortable flame resistant, wind resistant, water repellent and highly breathable knit material against bare skin.

PALM: Goat leather impregnated with Silicon for waterproofing, and flame resistant treatment and touch-screen capability.

PALM GRIP: TEGS microdot grip system provides superior increase in holding power in both wet and dry conditions over all other standard glove grips.

SUMMIT TF INSERT

SHELL: Nylon Ripstop 2-PLY material with laminate PTFE breathable waterproof backing

PALM: Suede deerskin leather with DWR finish and touch screen capability.

AGAINST SKIN LINING: Polartec® Wind Pro® FR lining for soft comfortable flame resistant, wind resistant, water repellent and highly breathable knit material against bare skin.

GLOVE LEASH: Forearm glove leash with sliding cord lock to secure gloves to your forearm for security when gloves are on or off.

GLOVE CLIP: Plastic glove clips on inner cuffs for fastening gloves together or to fasten to other items when not in use .

SUMMIT COMBAT GLOVE

SHELL: 6.5 OSY Tweave material with both nylon and spandex for stretch and durability

PALM: Goat leather impregnated with silicon for waterproofing, and flame resistant treatment and touch screen capability.

INNER LINER: Polartec Active® insulation is made from resilient lofted fibers for regulation of warmth, advanced breathability and fast drying.

WRIST CINCH: Velcro® wrist closure for a comfortable, snug fit to keep wind and cold out.
